

The Finnish Top 0.4 Percent: An Exploration of Top Tax Shares in Finland from 2009 to 2013

Kyle Ott and Cornelius Schneider

14 November 2014

Contents

1	Our Unique, Tidy, Open, Reproducible Dataset	1
2	Descriptive Statistics of Our Data	1
3	Inferential Statistics: First Model Attempts	1
4	Conclusion: Further Analysis Needed	1
	References	2

1 Our Unique, Tidy, Open, Reproducible Dataset

Briefly describe how we acquired the data

2 Descriptive Statistics of Our Data

3 Inferential Statistics: First Model Attempts

4 Conclusion: Further Analysis Needed

This project used RStudio (2014) to create this research proposal.
